COMPOSITION:

Each 5ml contains:

Ivy Leaf Extract 35mg
Thyme 20mg
Licorice 20mg
Vasika 10mg

NOKUFF Plus COUGH SYRUP:

For centuries herbs have been used in the treatment of different diseases and now it has been proven with latest research that IVY leaf, Adhatoda Vasika, Licorice and Thyme are being successfully used in many countries of the world specially in Europe and Latin America for the treatment of cough and inflammatory illness of respiratory tract cough. Efficacy and safety of these herbs in cough has also been proven by scientific studies.

NOKUFF Plus is a natural, safe, effective & non-sedative cough syrup which has Mucolytics, Expectorant, Bronchodilator and cough suppressant properties. NOKUFF Plus liquefies thick and tenacious mucous and facilitates its expulsion from respiratory tract. Thus it removes the medium for bacterial growth and act as expectorant. NOKUFF Plus makes thin protective layer of its bioactive compound over inflamed surface. Thus NOKUFF Plus provides soothing effect against irritating cough.

Ivy Leaf extract (Hedera helix):

Ivy Leaf extract is an expectorant and mucolytic in action. It helps to relieve the symptoms of bronchitis and cough by loosening the mucus and improving the air flow to the lungs. Phenols and saponins are mainly responsible for mucolytic action which is effective for the patients with bronchitis and asthma. EMEA has documented the beneficial effects of Ivy Leaf extract.

Adhatoda Vasika:

Adhatoda Vasika helps to maintain healthy respiratory system by its expectorant properties. It is sufficiently characterized for the function of upper respiratory tract. EFSA has documented its beneficial effects as food supplement.

Licorice (Glycyrrhiza glabra):

Licorice has soothing effect on the throat and antitussive in action. It helps to reduce throat irritation and dry cough. It contains isoflavones which are mainly responsible for relieving cough and helps to reduce bronchial spasm. EMEA has documented the beneficial effects of Licorice.

Thyme (Thymus vulgaris):

Thyme works as an antitussive and expectorant. It helps to relieve chest congestion and excess bronchial mucus. Thyme has a variety of natural flavonoids responsible for restoring normal lung functions. EMEA has documented the beneficial effects of Thyme.

INDICATIONS:

It is indicated for productive cough, dry & irritating cough, cough associated with bronchitis (Acute & Chronic). It works as cough suppressant, expectorant, bronchodilator, mucolytic and spasmolytic agent. It relieves the chest congestion, soothes the mucus membrane of bronchial walls & restores breathing.

CONTRAINDICATIONS:

No absolute contraindications. Medicines during pregnancy and breast-feeding should generally be taken after doctor's consultation.

SIDE EFFECTS & DRUG INTERACTION:

There have been no side effects reported within therapeutic dosage and there is no drug interaction known with the simultaneous use of NOKUFF Plus. This preparation can therefore be combined with other medicines such as antibiotics.

DOSAGE: (Shake well before each use)

Children below 5 years:

2.5 ml 3 times daily

Children 5-12 years:

5 ml 3 times daily
